SUMMARY

Full Stack Web Developer specializing in **Python (Django)**, **Django REST Framework**, and **React.js**. Experienced in building scalable web applications and REST APIs, including a full-stack E-Learning platform. **Active open-source contributor**

PROJECTS

Full Stack E-Learning Platform (React, Django REST, PostgreSQL)

[GitHub Repo](#)

- Built a full-stack LMS with separate Student, Instructor, and Admin portals using React.js, Django REST Framework, and PostgreSQL.
- Developed 70+ API endpoints, reducing API response time by 40%.
- Designed a modular Course → Section → Content architecture supporting videos, PDFs, quizzes, and assignments.
- Implemented JWT authentication, reducing unauthorized access attempts by 30%
- Optimized dashboard performance, reducing initial page load time by 60%
- Integrated Razorpay payment workflow, discussion forums, nested comments, polls, messaging, and group chat with read receipts. a modular backend architecture using reusable Django apps, serializers, custom permissions, and Swagger API documentation to improve maintainability and scalability

OPEN SOURCE CONTRIBUTIONS

Kerala Toddy Finder (KERALACODERSCAFE)

[Repo](#) | [PRs](#)

- Implemented interactive Kerala map scrolling logic, automatically navigating users to the corresponding district card on map interaction.
- Redesigned the Footer component with a fully responsive layout, improving visual consistency across desktop and mobile screens.
- Redesigned the Explore page UI for better user experience.

EDUCATION

WMO Imam Gazzali Arts and Science College, Wayanad

Wayanad, India

Bachelor of Computer Applications (BCA), Kannur University

2023–2026

Performance: CGPA/OGPA: 7.2/10 – First Class – 72.27%

SKILLS
